**DECLARATION FOR PATENT APPLICATION**

As the inventors named below, we declare that:

We believe we are the joint original and first inventors of the subject matter claimed in international patent application PCT/AU03/01120, entitled "Supplying Water to a Reticulation System from Different Sources", the national phase of which is entered herewith;

We have reviewed and understand the contents of the above-identified specification, including the claims thereof, as amended by any amendment specifically referred to above;

We claim priority under 35 USC 119 from Australian Patent Application 200229521098, filed August 30, 2002, which was the first application for patent or inventor's certificate for this invention;

We acknowledge the duty to disclose to the United States Patent and Trademark Office all information known to us to be material to patentability as defined in 37 CFR 1.56, including material information which became available between the filing date of the prior application and the National or PCT International filing date of the continuation-in-part application, if applicable; and

All statements made herein of our own knowledge are true, all statements made on information and belief are believed to be true, and further that these statements are made with the knowledge that the making of willful false statements or the like is punishable by fine or imprisonment, or both, under 18 U.S.C. 1001, and may jeopardize the validity of the application or any patents issued thereon.

POWER OF ATTORNEY: We hereby appoint all practitioners associated with Customer No. 26936 (Shoemaker and Mattare, Ltd.) as our attorneys to prosecute this application and to transact all business in the Patent and Trademark Office connected therewith.
